PROFILE

I am a trainer at Institute of Applied Management Technology Bab Tizimi - Meknes .
Developer and penetration tester of web applications. I am interested in computer security and new technologies.
I love sharing my knowledge by writing articles on my Medium blog and projects on my GitHub and I love discovering new cultures.

PROFESSIONAL EXPERIENCE

- 02/2021 – present **Freelance Web Developer, Upwork** 
Marketplace for freelancers in fields like writing, graphic design and web development. The site helps professionals find projects, communicate with clients and get paid. If you're a new freelancer, or working in a new field, you can rack up valuable experience without always having to pitch clients cold.
- 04/2021 – 05/2021 **Internship Trainee, InfoMarket**  Meknes, Morocco
Info-Market Meknes, Sale and maintenance of computer equipment, Wiring and installation of computer networks

EDUCATION

- 2019 – present **software development technician, Specialized Institute of Applied Technology Management Bab Tizimi** Meknès
- 2016 – 2019 **High school degree in physical and chemical sciences, Lycée Moulay Ismail** Meknès
